PROFESSIONAL SUMMARY

Full-stack software engineer and CS student at IMSciences with nearly 2 years of production experience.
CTO at Abler (co-founded with 4 brothers) and Full Stack Engineer at Code Club, building scalable web systems.
Specialized in React, Next.js, TanStack Start, Node.js, REST APIs, PostgreSQL, Drizzle ORM, and MongoDB.

TECHNICAL SKILLS

" Backend: Node.js, Express.js, REST APIs, Auth
" Frontend: React.js, Next.js, TanStack Start, TS
" Databases: PostgreSQL, Drizzle ORM, MongoDB
" Styling: Tailwind CSS, Responsive UI, Framer Motion
" DevOps: Linux (Ubuntu), Docker, Git, GitHub, Bun
" Auth: JWT, Better Auth, Cloudinary, Stripe, AI APIs
" Architecture: System Design, Scalable Schemas

EDUCATION & SCHOLARSHIPS

" BS Computer Science (BSCS) - IMSciences, Peshawar
In Progress " Algorithms, OS, Linux & Database Systems
" Continuous Merit Scholarship Awardee (Since 8th grade)
" HSC Computer Science - Hadaf Group of Colleges

CORE CAPABILITIES

" Full-stack web application architecture & delivery
" Relational & document database data modeling
" Role-Based Access Control (RBAC) & security
" Agile leadership, team collaboration & problem-solving

EXPERIENCE & LEADERSHIP

Abler (abler.dev) - Chief Technology Officer (CTO)
- Co-founded with 4 brothers; lead engineering and technical direction
- Architect full-stack web applications and client software solutions
- Set technology stack standards, code reusability, and sprint roadmaps

Code Club - Full Stack Engineer
- Develop responsive web interfaces with React, Next.js & Tailwind CS
- Engineer scalable Node/Express APIs, auth flows & database models
- Collaborate on agile team sprints, code reviews & release cycles

MAJOR PROJECTS

" TaskMaster (Live) - Task management & team collaboration with AI b
" EchoTune (Live) - Music streaming & marketplace platform (MERN)
" School ERP - Multi-role education suite (TanStack, PostgreSQL, Driz
" Weather Companion (Live) - Real-time API meteorological forecaster
